

Worthington Moose 1427 Introduces Tommy Moose Partnership

APRIL 2017 - Worthington Moose Lodge 1427, with the help of Dawn Diazmercado and Willy Caudill (Heart of Our Community Chair), is proud to announce the creation of a wonderful partnership between the Tommy Moose Program, Trinity Health Hospitals and local Emergency Medical Services.

Among the local hospitals that are participating in the program are Mount Carmel St. Ann's, Mount Carmel West, Mount Carmel East, Mount Carmel Grove City, Mount Carmel Lewis Center and Mount Carmel Diley Ridge. We are also blessed in joining 100 local EMS squads in

expanding this wonderful program throughout the Columbus area.

Together, we will assist in providing Tommy Moose dolls to children who are going through traumatic events as a way to relieve the stress and anxiety of an otherwise difficult situation. Ultimately, we hope Tommy, and not the emergency, is what the children of Central Ohio remember most.

Joined by Michael Uhlenhake (President of the Ohio State Moose Association), the Worthington Lodge proudly presents Unhee Kim (President of Mount Carmel St. Ann's Hospital), Jamie Wilson (Director of EMS), and Terri Brown (EMs Coordinator), with 500 Tommy Moose dolls to kickoff this joint venture.

Also in attendance are Arnie Holley, Johnny Stauch (District President), Worthington Moose Lodge 1427, Tony Marre (Administrator), Steve Fingerlow (Governor), the Board of Officers, and various local EMS.

We are incredibly grateful for the Ohio State Moose Association and everyone who was involved in making Tommy Moose shine.
